

Peter Lan, D.D.S.

FAMILY DENTISTRY

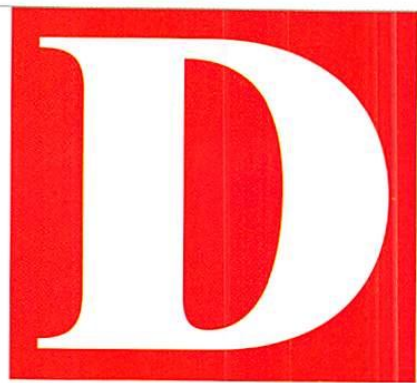

Dr. Qing "Peter" Lan has known since age 5 that he wanted to be a dentist. He essentially grew up in a hospital, watching his mother care for patients as a cardiologist. He saw how each hospital department operated, from pharmacy and dental to surgery and emergency. "What fascinated me most was the dental area," he says. Today, Dr. Lan owns his own dental practice, Vanilla Family Dentistry, treating patients ages 6 months through 90. He specializes in general and cosmetic dentistry, including implant restorations, Invisalign, full-mouth rehabilitation, oral sedation, and wisdom teeth extraction. Dr. Lan's office has the latest equipment and technology, including digital X-ray. The highly-trained office staff is friendly, always helping patients have a pleasant visit. "We focus on quality care," Dr. Lan says. "I designed my private practice to accomplish our goal of providing the best in personalized care." Dr. Lan's broad knowledge of dental specialties benefits patients when devising their comprehensive treatment plans. He completed a fellowship with the International Congress of Oral Implantologists and is recognized as one of America's top dentists for both general and cosmetic dentistry by Consumer's Research Council of America. He educates elementary students about the importance of oral health, offers free dental care through Smile Mobile DentalVan, and provides dental screenings for Special Olympics athletes. "I do all I can to make this a place my patients look forward to visiting," Dr. Lan says. "We genuinely care about everyone who comes in."
